MESSAGE FROM THE CHAIR .......... 2
BE A BUSINESS ADVOCATE .......... 3
LEGISLATIVE AGENDA ................. 4
PRO-BUSINESS SCORECARD .......... 16
ELECTED OFFICIALS DIRECTORY .. 18
CHAMBER LEADERSHIP ............... 36
Since 1889, the Greater Oklahoma City Chamber has served as the voice of businesses in the Oklahoma City metropolitan area. As one of the country’s largest chambers of commerce and economic development organizations, the Chamber actively engages in the legislative process to promote pro-business legislation that will foster economic growth and make Oklahoma City an attractive place to do business.

The Chamber’s legislative advocacy efforts have a direct impact on the state’s business climate, such as the passage of the landmark 2013 workers’ compensation reform legislation. The Chamber works to pass legislation and protect laws that will advance the state’s economy, protecting economic development incentives, supporting transportation funding and promoting an environment that is conducive to research and development. Our future workforce is vitally important, and issues such as protecting common core standards, are critical to our future growth. On these and other issues, the Chamber is fully dedicated to making our voice heard on legislation that will impact your company’s bottom line.

I am convinced the transformation in the Oklahoma City metropolitan area and across the state is, in some part, attributed to the business community’s participation in the political process. To ensure this great momentum continues, the Chamber is actively engaged with political leaders to build on our current successes and to solve the challenges we face.

As a Chamber member, you and your business place a key role in the legislative process. I invite you to take a close look at our Chamber’s 2014 legislative priorities and urge you to become involved in issues affecting the business community. By taking the time to contact your elected representative through email, a letter or phone call to let them know where you stand on specific issues, you can have a direct impact on the legislative process and strengthen the influence of the Chamber at the State Capitol.
Our world is constantly changing. But when it comes to advocating for business at the Capitol, some things remain the same – the importance of contacting and developing relationships with legislators.

There are multiple ways to stay informed and make sure your voice is heard throughout the year.

Business Advocacy Center
The Chamber’s Business Advocacy Center, www.OKCBusinessAdvocate.com, makes having a voice at the Capitol simple. With just a few simple clicks, you can identify your elected officials and communicate with them, ensuring that you have an impact in the decisions being made by our state’s leaders. You can also stay up-to-date during the legislative session by signing up for The Business Advocate, the Chamber’s newsletter solely focused on what’s happening at the Capitol during the Legislative Session. Together, we can build a stronger business climate for Greater Oklahoma City.

Greater Oklahoma City Chamber PAC
To further the goals of the Greater Oklahoma City business community, The Greater OKC Chamber Political Action Committee was formed to aggressively pursue the election and re-election of candidates who take a stand for Oklahoma City’s key business issues.

Since the PAC was founded, more than $100,000 has been contributed to 83 candidates. Of these 83 candidates, 76 were elected or re-elected to office. You can be a part of this effort - make a contribution to help us ensure a stronger economic climate by helping elect candidates who take a stand on issues such as economic development, workers compensation and lawsuit reform, and transportation/infrastructure funding.

Visit www.okcchamber.com/chamberpac for more information and a contributor statement.

Contact the Government Relations Team
Throughout the year, the Chamber’s team works to ensure that Greater Oklahoma City is moving forward and growing stronger. From making business issues heard at the capitol to economic development activity, the Chamber is the voice for business in Greater Oklahoma City. The Chamber staff is always available to assist your business in any way possible.

Workers’ Comp Reform
The Chamber will support additional workers’ compensation reform, both legislative and through rule-making, to ensure the successful and constitutional implementation of SB 1062.

Economic Development Incentive Programs
All economic development incentives should provide the state with a benefit that outweighs the cost to the state of the incentive. The Chamber therefore supports increased scrutiny, transparency and openness in evaluating the effectiveness of the state’s business incentives and the creation of a process to do so.

The Chamber relies heavily on a number of the state’s economic development and incentive programs to recruit companies to the Greater Oklahoma City area and to enhance expansion opportunities for our existing companies. The Chamber believes it is critical that certain programs be retained by the state. Our position on specific economic development incentives is as follows:

• The Chamber supports retaining the state’s “premier economic development incentives” that are critical in attracting new businesses to the Greater Oklahoma City area and in providing existing businesses an economic incentive to expand. These incentive programs are, for the most part, unique to Oklahoma and separate the state from what other states and competing locations are offering. The Chamber will oppose attempts to sunset, repeal or unreasonably modify the following economic development programs:
  - Quality Jobs Act (QJA), 21st Century QJA, Small Employer QJA and the Prime Contractor QJA;
  - Aerospace Engineer Tax Credits.
• The Chamber supports protecting Oklahoma’s “foundational incentive programs,” which are basic incentives offered by virtually every other state and competing location. Without the following programs, Oklahoma will not be considered a viable location by many companies looking to locate in Oklahoma:
  - Five-year ad valorem tax abatement and sales tax exemption on facilities and equipment used in manufacturing and warehouse and distribution systems;
  - Freeport (Inventory) Exemption;
  - Investment Tax Credit.
• The Chamber supports retaining several “industry specific incentives” that are necessary for the development of industries important to Oklahoma’s economic future. Those programs are:
- Oklahoma Quality Events Act;
- Tax Credit for Electricity Generated by Zero-Emission Facilities;
- Sales Tax Exemption & Refund for Aircraft Repairs and Modification and the Sales Tax Exemption & Refund for Aircraft Maintenance or Manufacturing Facilities;
- Oklahoma Film Enhancement Rebate Program;
- Excise Tax Exemption on Aircraft Sales.

- Additionally, the Chamber supports retaining the following Community Development Programs (which have different policy objectives than the economic development incentive programs and should therefore be evaluated under different metrics):
  - Tax Credit for Qualified Rehabilitation Expenditures for Historic Buildings;
  - Tax Credit for Energy Efficient Residential Construction.

During the 2014 Legislative Session, the Chamber will support legislation to extend the Aerospace Engineer Tax Credits, extend and fund the Oklahoma Film Enhancement Rebate Program, extend and strengthen the Oklahoma Quality Events Act and amend the Small Business Quality Jobs Act to ensure all rural areas of the state may participate.

Pension Reform
The Chamber supports legislation to strengthen the long-term financial condition of the state’s pension plans.

American Indian Cultural Center and Museum
The Chamber supports legislation to allow state bonds (or other state funds) to be issued to match privately raised money to complete the American Indian Cultural Center and Museum (AICCM). The Chamber’s support is based upon the AICCM having a viable plan to fund the ongoing operations of the AICCM.

Oil & Gas Tax
The Chamber is monitoring discussions regarding oil and gas tax structure, which is vital to promote the investment of drilling capital in Oklahoma. If necessary, the Chamber will engage in support of the energy industry.

Water
The Chamber will work with the governor, state legislature, City of Oklahoma City and other stakeholders to ensure the availability of a long-term water supply for central Oklahoma.

Lawsuit Reform
The Chamber supports the following lawsuit reform measures:
- Enacting an eight-year statute of repose for medical liability;
- Allowing evidence of plaintiff’s reimbursement from collateral sources;

Research and Development
The Chamber supports full funding of the Oklahoma Center for the Advancement of Science & Technology (OCAST) as it relates to the Seed Capital Fund and other programs managed by i2E to support the creation and growth of small businesses and jobs in Oklahoma.

Quality Events Act
The Chamber supports legislation to strengthen and extend the Oklahoma Quality Events Incentive Act to allow Oklahoma communities to attract and retain high economic
impact events in increasingly competitive regional, national and international markets.

**Judicial Reform**
The Chamber supports the following Constitutional Referendums:

- Amending the “single-subject” provision to provide clear direction to the Legislature;
- Amending the “special law” provision to replace ambiguous definitions.

**Internet Sales Tax**
On the state level, the Chamber supports legislation to clearly define the state’s “nexus” laws (which requires retailers with a physical presence in Oklahoma to collect and remit sales tax on internet sales) to ensure sales tax is collected to the full extent of the law.

On the federal level, the Chamber supports enactment of the Marketplace Fairness Act, which would place electronic and internet vendors on a level playing field with Oklahoma’s brick and mortar companies with regard to the collection and remission of sales tax.

**Oklahoma Quick Action Closing Fund**
The Chamber supports funding the Oklahoma Quick Action Closing Fund to a level that will allow Oklahoma to be competitive with surrounding states. Increased funding for this economic development tool will assist the state in attracting high quality jobs and industry to Oklahoma.

**Municipal Revenue**
The Chamber supports reducing the Oklahoma Tax Commission (OTC) fee to municipalities for collecting and remitting sales tax to cover only OTC’s incurred costs.

**MAPS 3 Projects**
The Chamber supports the timely completion of the MAPS 3 projects.

**Dog Kennels**
The Chamber supports legislation to amend state law which restricts the location of dog kennels, grooming, boarding and dog day-care centers within 2,500 feet of a public or private school or children’s daycare facility. As currently written, the statute unreasonably restricts the rights of business owners and hinders development of needed services in high-density urban environments.

**TRANSPORTATION**

**I-40 Crosstown Reconnection**
The Chamber believes restoring full access between I-40 and downtown Oklahoma City is critical, and will therefore advocate for the reconnection of the old I-40 (new boulevard) from Western Avenue west to the new I-40 by 2014. The Chamber will further advocate for the completion of the remaining reconnection corridor between Gaylord/Shields and Western Avenue as promptly as the environmental process allows.

**Downtown Boulevard**
The Chamber will work with the Congressional delegation, the Oklahoma Department of Transportation, and the City of Oklahoma City to ensure the timely completion of the Downtown Boulevard as soon as it is practicable. The Chamber believes that significant delays in completing the Downtown Boulevard could impair access to downtown and negatively impact current and future businesses located along the proposed boulevard route and within the downtown core.
Major Projects
The Chamber will advocate for funding and completing work on major interchanges located at I-44 and Broadway Extension, I-240 and I-35 (Crossroads), and I-40 east of I-240 as well as necessary improvements to S.H. 74 (north of Lake Hefner Parkway).

Governor’s Bridge Improvement and Turnpike Modernization Plan
The Chamber supports providing adequate annual appropriations to implement Gov. Fallin’s Bridge Improvement and Turnpike Modernization Plan to repair or replace all of Oklahoma’s structurally deficient bridges on the state's highway system by 2019.

ODOT Eight-Year Plan
The Chamber supports annual appropriations necessary to preserve and implement the Oklahoma Department of Transportation’s (ODOT) eight-year construction work plan.

Transit
The Chamber supports implementation of transit programs that will best serve Central Oklahoma including the Central Oklahoma Transit and Parking Authority (COTPA) 2005 Fixed Guideway Transit Study (commuter rail study) and its following components:

- Association of Central Oklahoma Government’s (ACOG) Regional Transit Dialogue Committees to identify regional transit alternatives/solutions for Central Oklahoma;
- ACOG’s Commuter Corridors Study to examine mitigation strategies for future congestion.

The Chamber supports amending state laws to facilitate the development of a Regional Transit Authority in Central Oklahoma.

The Chamber supports an increased allocation of state revenues into the state Public Transit Revolving Fund to meet citizen demand for public transit.

Federal Highway Trust Fund
The Chamber will work with our Congressional delegation, ODOT and the City of Oklahoma City to secure a permanent funding solution for the Federal Highway Trust Fund (including Mass Transit programs).

The Chamber supports full funding for the current MAP-21 Transportation bill which expires in September 2014.

The Chamber supports reauthorization of a multi-year Surface Transportation Act before the current two-year MAP-21 bill expires in September 2014.
Ports of Entry
The Chamber supports providing adequate annual state appropriations and staffing levels for the timely completion and effective use of weigh stations at Oklahoma’s ports of entry to ensure the protection of Oklahoma’s roads and bridges from unnecessary damage caused by overweight freight loads.

Intermodal Hub
The Chamber will work with the City of Oklahoma City, ACOG, COTPA, ODOT and the state legislature to develop and fund an intermodal hub at the present Santa Fe Station that will effectively integrate various modes of transportation and enhance economic development opportunities.

10th Street Ramp
The Chamber will advocate for completion of the I-235/Harrison/10th Street Ramp access improvements by 2014.

Heartland Flyer
Passenger rail service is a key component of the development of the Oklahoma City intermodal hub and the future development of commuter and light rail throughout the metropolitan area. The Chamber will work with the Congressional delegation, ODOT and ACOG to oppose efforts to reduce or eliminate the federal subsidy received by Oklahoma to operate the Heartland Flyer Amtrak service to Fort Worth, Texas. The Chamber supports continued dialogue on extending the Heartland Flyer Amtrak service to Newton, Kansas – which would connect Oklahoma City to St. Louis, Chicago and other locations on the Amtrak system.

Parking
The Chamber supports increased funding for construction of additional parking to allow continued economic development downtown.

Quiet Zones
The Chamber will work with the City of Oklahoma City and the Alliance for Economic Development to establish a Railroad Quiet Zone on the BNSF mainline running through downtown Oklahoma City.

Alternative Transportation
The Chamber supports increased construction of sidewalks, trails and bike lanes.

HEALTH CARE

Insure Oklahoma
The Chamber supports broadening Insure Oklahoma to provide health insurance to more of the state’s uninsured. To ensure the continuation and success of this program, pursuit of all available funds should be considered to reduce the costs of uncompensated care that are currently shifted onto health care providers, employers and individuals.

Additionally, the Chamber supports efforts by Oklahoma’s leaders to develop an Oklahoma Plan to extend health insurance coverage to more Oklahomans.
Mandates
The Chamber opposes new health insurance mandates and liability that will undermine an employer’s ability to provide quality health insurance at reasonable cost to employees.

Research and Development
The Chamber will support efforts to foster an environment that is conducive to further research and will oppose efforts to unreasonably restrict the continued development of the state’s bioscience and research programs.

Physician Shortage
The Chamber supports providing incentives to recruit and retain Primary Care Physicians and Allied Health Professionals in Oklahoma, especially in rural and underserved areas, through expansion of residency programs in the state’s medical schools, scholarships, loan forgiveness and other incentives. The Chamber further supports efforts to identify new funding streams dedicated to this initiative.

The Chamber also supports the expansion of Telemedicine as a means of addressing the physician shortage and issue of limited health care access in rural Oklahoma.

Any Willing Provider
The Chamber opposes “any willing provider” legislation which would eliminate the incentive for medical providers to contract with managed care networks and, as a result, potentially frustrate efforts at cost and quality control and ultimately deny consumers the benefits of cost-reducing arrangements with providers.

Wellness/Oklahoma Health Improvement Plan
The Chamber supports state wellness and disease prevention programs that serve to improve the physical and mental health of Oklahoma citizens such as the Oklahoma Health Improvement Plan supported through the State Department of Health, Outreach initiatives, as well as workplace and school-based wellness programs.

E-Cigarettes
The Chamber will oppose measures that would restrict an employer from banning the use of e-cigarettes in the workplace.

Penalties for Sale of Over-the-Counter Products
The Chamber will oppose measures that would limit access to the sale of legal over-the-counter products.

Federal Issues
The Chamber supports improving health care quality, access and affordability without imposing new mandates and/or taxes on business. Therefore, the Chamber opposes a single-payer government-run/public option or health care system with government mandates.

The Chamber believes that employers drive innovation in health benefits and that market-driven health reforms are the best approach to reducing costs while promoting efficiency, wellness and quality of care.
EDUCATION & WORKFORCE DEVELOPMENT

PRE-K-12 EDUCATION ISSUES

Common Core Curriculum Standards
The Chamber supports full implementation of the core standards in English and math. We will oppose any attempts to slow or halt full implementation.

Attract and Develop High Performing School Leaders
Top-notch leadership by school superintendents and principals is critical to school performance. Additionally, Oklahoma is facing a shortage of experienced school leaders because of retirements and aging workforce. The Chamber supports creation and implementation of initiatives that attract, retain, and develop innovative and high performing school leaders.

Charter Schools
The Chamber has been a strong advocate for Charter schools and education choices. We support creating more charter schools and enabling successful charter schools to grow. We should:

- Enable charter schools to fund infrastructure and/or allowing charter schools to utilize bond funding;
- Lift the caps on how many students can attend charter schools by:
  - allowing charters schools to be located anywhere in the state;
  - encouraging authorizers to expand caps on charter school attendance.

Early Childhood Education
The Chamber has been a steadfast supporter for early childhood education and full funding of pre-kindergarten and kindergarten programs. Targeted spending on our youngest children is simply a smart investment. The Chamber supports legislative initiatives to maintain early childhood education programs and initiatives.

Fully Funding Recent Education Reforms
The Chamber supports protecting existing education reforms – in particular the Achieving Classroom Excellence (ACE), Reading Sufficiency Act and Teacher Leader Effectiveness – by fully funding the strategies necessary to successfully meeting these expectations.

Targeted Incentives for STEM Excellence and Achievement
There is a growing demand for students that can work in Science, Technology, Engineering and Math (STEM) fields. Oklahoma does not produce enough students that excel in STEM. The Chamber supports programs to improve quality of teaching and student performance in the STEM fields.
Teacher Preparation and Support Pipeline

Oklahoma’s teacher preparation system needs to be improved in order to train, attract, and retain high quality teachers. Preparation of prospective teachers, on-the-job improvement opportunities and enabling high-performing teachers to pursue a financially attractive career ladder without leaving the classroom, are critical issues.

- We support development of a competitive market-based salary and benefits package for teachers which encourages high-performing teachers to stay in the classroom.
- We support higher education programs and partnerships to better prepare teachers for real-life classrooms and enable higher education to monitor graduates’ classroom performance.
- We support National Board Certification (NBCT) model as a basis for teacher improvement or a similar model.

Increased Instruction Time

Oklahoma currently requires only 175 instructional days, which is among the lowest in the nation, and some schools have instructional days of 6 hours or less. We support legislation that facilitates increasing instruction time in the classroom and time on-task for students.

Maintain and Protect Graduation Requirements

The Chamber wants all high school graduates to be prepared to enter college or the workforce. We supported the Achieving Classroom Excellence (ACE) law that requires students to complete rigorous coursework and pass four of seven end-of-instruction exams. The Chamber opposes weakening graduation requirements or curriculum standards. We oppose legislative and administrative actions that could reduce the rigor of the testing system.

Oklahoma School of Science and Mathematics

The Oklahoma School of Science and Mathematics (OSSM) has consistently ranked among the nation’s top public high schools. More than half of OSSM graduates stay in Oklahoma, and 85 percent are choosing STEM careers. The Chamber supports full funding of Oklahoma School of Science and Mathematics (OSSM) FY 2015 budget request. Recently completed dorms will make it possible to admit an additional 30 to 40 Oklahoma students. A modest increase in funding will allow OSSM to accept more qualified Oklahoma students, realize economies of scale, allow Oklahoma’s best and brightest to realize their full potential and help fuel Oklahoma’s economic engine.
School and Campus Safety
In the past three years, legislation has been introduced that would allow certain students to carry concealed weapons onto college property. The Chamber continues to oppose efforts to permit the carrying of weapons at any early childhood facility, Pre-K - 12 school, Career Tech or on college campuses.

CAREER TECHNOLOGY AND HIGHER EDUCATION

College Degree Completion and Funding
In 2011 Gov. Fallin, in conjunction with the Oklahoma State Regents for Higher Education, announced Oklahoma’s entry into the national degree completion initiative—Complete College America (CCA). The ultimate goal for Oklahoma is to add 20,400 private and public sector degrees and certificates to the state’s workforce over the next 12 years. The first year of CCA proved highly successful with more than 2,900 new degrees and certificates being produced; far exceeding the annual goal of 1,700. As this effort enters its second year, it has become an important foundation of Gov. Fallin’s workforce initiative as Chair of the National Governors Association. The Chamber supports prioritizing funds to ensure continued success for the Complete College America initiative.

Business & Industry Training
The Oklahoma CareerTech System is acknowledged as one of the top systems in the nation. CareerTech is a key ingredient in attracting industry to Oklahoma through its Training for Industry Program (TIP). The Chamber supports enhancement of CareerTech programming and ongoing funding to assure that training needs for new and existing industry are being met.

Career Readiness & Certification
The Chamber believes Oklahoma needs more of our workforce to have post-secondary education targeted toward the skills that are in demand and meet industry needs. The Chamber supports creation of Industry Recognized Credentials training programs as funding is available.

- We also support the scholarship programs of Oklahoma Tuition Equalization Grants (OTEG), Oklahoma Tuition Aid Grants (OTAG), and concurrent enrollment, which are vital in reaching the Complete College America goals by ensuring more students can enter college and obtain a college degree.

- The Chamber supports higher education capital and maintenance improvements to support record enrollment growth as funding is available.

Oklahoma’s Promise
Oklahoma’s Promise is one of the most successful college access programs in the country. Oklahoma’s Promise students perform better and graduate at a higher rate than the student population in general. There have been efforts to alter family income criteria and/or student performance requirements of the program. These changes would change the intent of the program by reducing access and lowering the production of college graduates by the system. We oppose legislation that would change the focus and intent of this successful program.

Oklahoma Military Connection
Oklahoma will continue to see a high number of military veterans re-enter the workforce. CareerTech and higher education are both positioned to provide fast-track certification and job placement for veterans who need help transitioning their skill to the job market. The Chamber supports outreach programs for returning military personnel as funding is available.
Collaborating for Business

The decisions made at the Capitol have far-reaching impacts on all Oklahomans and Oklahoma business owners. The Chamber recognizes that all businesses in the state should have the opportunity to grow and succeed in a positive business climate.

By collaborating with various partner organizations on issues, the Greater Oklahoma City Chamber can help promote a business-friendly environment throughout Greater Oklahoma City and the State of Oklahoma.

During the 2014 Legislative Session, the Chamber will partner with the Tulsa Regional Chamber on a joint agenda. The Chamber is also joining forces with the Tulsa Regional Chamber and the State Chamber to promote issues in a joint jobs agenda. These agendas can be seen in their entirety at www.okcchamber.com/legislative.

Invested in Oklahoma

Our home state has certainly undergone a renaissance over the past 20 years, and at INTEGRIS Health, we’ve been doing the same for the health of Oklahomans.

Since the formation of INTEGRIS, we have expanded throughout the state. We’ve spent millions renovating and revitalizing our facilities throughout the state and building new hospitals in Edmond and Grove. We’ve spent years forging relationships with our colleagues and neighbors to offer a complete continuum of healthcare through the INTEGRIS Health Network. We’ve witnessed groundbreaking firsts – like Oklahoma’s first heart transplant – and have received countless awards for our efforts to remain on the cutting edge every hour of every day.

It’s all a part of providing the exceptional healthcare Oklahoma deserves. We believe it’s crucial to never stop challenging standards, exceeding expectations and building hope. That’s INTEGRIS Health.
It is critical for the business community to support candidates and elected officials who will advance pro-business legislation at the Capitol. One measure the Chamber uses to identify pro-business legislators is a legislative scorecard produced by the statewide Research Institute for Economic Development (RIED). This organization has been tracking legislative votes on pro-business legislation since 1997. The Greater Oklahoma City Chamber is a founding sponsor of RIED and serves on a committee of business and economic leaders who meet each year to identify which legislation to consider for the annual score.

Likewise, the Chamber selects specific legislation that is critical to the growth and development of the Oklahoma City region to help identify pro-business legislators. In 2013, there were 10 key business and education measures used to determine the Oklahoma City ranking, including: Provider Fee legislation, Quality Jobs incentives, income tax reform, pension reform, workers’ compensation reform, changes to the makeup of Oklahoma Water Resources Board, school safety and efforts to weaken graduation standards.

The following charts represent the voting records for State House and Senate members based on the 10 issues identified by the Greater Oklahoma City Chamber and RIED scores for 2013. RIED scores for previous years can be found at www.riedreport.com.

Oklahoma's state government consists of the Executive, Legislative, and Judicial branches. The executive offices are elected to four-year terms, except for members of the Corporation Commissioners, who are elected to staggered six-year terms.

Oklahoma's bicameral legislature is composed of 48 State Senators and 101 State Representatives. Senators serve staggered four-year terms. Elections for odd-numbered Senate districts will be in 2014. All seats in the House of Representatives are elected every two years.

The state is divided into nine Supreme Court judicial districts, with three judges elected every two years during the general elections.

OKLAHOMA COUNTY GOVERNMENT
www.oklahomacounty.org

The administrative body of Oklahoma County is the Board of County Commissioners, which was created by the Oklahoma Legislature. Oklahoma County, like all counties in Oklahoma, is divided into three districts. The districts are as equal in population as possible, numbered 1, 2, and 3, and subject to alteration by the Oklahoma Legislature not more than once every 10 years. One commissioner is elected from each district for a term of four years.

Elections are held every two years, beginning with a primary on the last Tuesday in June. The run-off is held on the fourth Tuesday of August, and the general election is on the first Tuesday following the first Monday in November.

YEAR 2014
RACES Districts 1 & 3, District Attorney
County Assessor, County Treasurer
PRIMARY June 24, 2014
RUNOFF August 26, 2014
GENERAL November 4, 2014

Elections carried out by Oklahoma County Election Board
The Oklahoma City Charter, adopted in 1916, originally called for a commission form of government. The mayor and eight city council members are elected to four-year terms. In order to keep continuity within city government, half of the council is elected every two years. The city is divided into eight wards. The voters of each ward elect a council member to represent them, and the mayor is elected at large. The mayor and the council appoint a city manager to serve as the city’s chief administrative official.

Primary elections are held the first Tuesday of March. The general election is held the first Tuesday of April. The filing period is neither more than 29 days nor less than 24 days before the primary election. Elections for the city wards are always held in odd-numbered years, while the mayoral election is held in an even-numbered year. Elections for 2014 and 2015 are as follows:

OKLAHOMA CITY SCHOOL DISTRICT

www.okcps.org

900 N. Klein Ave., Oklahoma City, OK 73106

Oklahoma City School District, I-89, has eight elective school board officers that manage the fiscal matters of the school district according to state statutes. There is one chairman (a new position as of 2001) elected district-wide and seven board members elected from geographical districts. Board members serve four-year terms and elections rotate by district on a four-year cycle.

Upcoming elections for the Oklahoma City School Board are as follows:

YEAR 2014
RACES Districts #5 & #7
PRIMAR Y RUNOFF February 11
(April 1 if needed)

2015
District #6
February 10
April 7

BOARD OF ADVISORS / LEAD INVESTORS

Board of Advisor member companies play a key leadership role in the Greater Oklahoma City Chamber. An annual investment of $3,000 or more qualifies a member company to be part of the Board of Advisors. They are invited to Board Meetings, Board Retreats and Intercity Visits.

Lead Investor member companies demonstrate their commitment to Greater Oklahoma City by financing the Chamber’s operations at significantly higher levels. An annual investment of $1,000 or more qualifies a member company to be a Lead Investor.

BOARD OF ADVISORS PLATINUM LEAD INVESTORS ($40,000 OR MORE)

In Oklahoma City we don’t wait for good things to happen. We forge the community we deserve. That’s what makes OKC one of the best cities in America. We are proud to work alongside the leaders of our community in a shared commitment to move

BRAVELY ONWARD.®

okfidelitybank.com | 405.755.5330
At AT&T we know businesses run at the ever-changing speed of technology. In Oklahoma and across the nation, we’ve kept pace with innovations such as our wireless network with access to the nation’s largest Wi-fi network. It’s just another way we help businesses in Oklahoma grow and stay connected to their communities — and their world. Always.
Committed to keeping you healthy.
