A history of great service.

For the past five decades, Arvest has been committed to making our customers happy. And we’ve done that by giving them what they want. Whether it’s free checking, 8 to 8 hours or convenient locations, we’re always thinking of new ways to serve you better. As we begin our next 50 years, we’ll be thinking of even more ways. Contact us today and let us know what we can do for you.

Arvest celebrates 50 years.

As the voice of business in Greater Oklahoma City, the Chamber is your advocate on issues affecting the business community. Each year, the legislative session presents us with the opportunity to strengthen our region’s business climate.

We saw significant progress during the 2011 legislative session, but our work is far from over. The priorities laid out in our 2012 agenda will foster growth, both for Greater Oklahoma City and the business community. As our region continues to grow and expand, we must ensure that the decisions made at the capitol will not impede our progress.

As we’re presented with another election year, the work of the Greater Oklahoma City Chamber Political Action Committee (Greater OKC Chamber PAC) is as important as ever. Through the PAC, we are able to support candidates for elected office who share our vision to create a business-friendly city. I cannot express how vital it is that the individuals who represent us in the halls of government share our vision for a greater Oklahoma City. During the last election year, the PAC supported 22 candidates – with 21 of those candidates elected to office.

I hope you’ll take a closer look at each of the ways in which you can get involved in our legislative efforts. Through a concerted grassroots effort, I’m certain we’ll continue to see success at the capitol and positively impact the business climate in Greater Oklahoma City.

Sincerely,

Carl Edwards
Chairman, Greater Oklahoma City Chamber

ECONOMIC DEVELOPMENT

Business Incentives
All business incentives should provide the state with a benefit that outweighs the cost of the incentive. The Chamber therefore supports increased scrutiny, transparency and openness in evaluating the effectiveness of the state’s economic development incentives and the creation of a process to do so. In addition, we support revising the language of any incentive that needs to be changed or narrowed to accomplish its intended purpose.

The Chamber relies heavily on a number of the state’s economic development and incentive programs to recruit companies to Greater Oklahoma City and to promote the growth of our existing companies. We believe it is critical that certain programs be retained by the state.

Our position on specific economic development incentives is:

• The Chamber supports retaining premier economic development incentives that are critical in attracting new businesses to the Greater Oklahoma City area and in providing existing businesses an economic incentive to expand. These incentive programs are for the most part unique to Oklahoma and separate the state from what other states and competing locations are offering. We will oppose attempts to change, sunset or repeal the following premier economic development incentives: The Quality Jobs Program (QJP), The 21st Century QJP, The Small Employer QJP, The Prime Contractor QJP and The Aerospace Engineer Tax Credit.

• The Chamber supports protecting Oklahoma’s foundational incentive programs, which are basic incentives offered by virtually every other state and competing location. Without the following programs, Oklahoma will not be considered a viable location by most companies: five-year ad valorem tax abatement and sales tax exemption on facilities and equipment used in manufacturing and warehouse and distributions systems, the Freeport (Inventory) Exemption and the Investment/New Jobs Tax Credit.

• The Chamber supports the retention of several industry specific incentives that are necessary for the growth and development of industries important to Oklahoma’s economic future. Those programs are: the Oklahoma Quality Events Act, Oklahoma Film & Music office incentives, the Sales Tax Exemption & Refund for Aircraft Repairs and Modification, the Sales Tax Exemption & Refund for Aircraft Maintenance or Manufacturing Facilities and the Excise Tax Exemption on Aircraft Sales.

• The Chamber supports retaining the following Community Development Programs: 1) Tax Credit for Qualified Rehabilitation Expenditures for Historic Buildings; 2) Tax Credit for Electricity Generated by Zero-Emission
Facilities; and, 3) Tax Credit for Energy Efficient Residential Construction. These programs have different policy objectives than the economic development incentive programs and should therefore be evaluated under different metrics.

Research and Development
The Chamber advocates for full funding of programs managed by OCAST, including the Seed Capital Fund and other programs managed by i2E, to support the creation and growth of small businesses and jobs in Oklahoma.

We advocate for the protection of the Economic Development Generating Excellence Fund (“EDGE Fund”) from being repealed or borrowed from and support identifying a permanent funding source to allow the Fund to reach $1 billion.

Liquor Laws
The Chamber will work with industry stakeholders, legislators and others to update the state’s liquor laws.

We support legislation to address liquor licensing issues in Bricktown relating to the 300-foot rule, which prevents the ABLE Commission from granting liquor licenses to new bars within 300 feet of schools or churches.

Lawsuit Reform
The Chamber supports legislation that will:
- significantly reform the state’s class action lawsuit statutes.
- permit the admissibility of evidence of collateral source payments.
- adopt the “Transparency in Private Attorney Contracting Act” to establish policies and limits on the use of private contingency fee attorneys on behalf of the state.
- ensure the Oklahoma Evidence Code (section 2407) mirrors the Federal Rules of Evidence with regard to products liability and subsequent remedial measures.
- require that prior to any action, claim or motion for discovery against an officer, director, shareholder or member of a corporation or LLC, a judgment against the corporation or LLC must be unsatisfied.

Workers’ Compensation Reform
The Chamber believes the impact of the reforms enacted during the 2011 legislative session should be fully evaluated before enacting additional, significant reforms. Until then, we support incremental reforms to streamline the process, eliminate waste and delay from the system and produce lower premium costs for Oklahoma employers.

Business Tax Reform
The Chamber supports legislation or a constitutional amendment to permanently address the 2009 ruling of the Oklahoma Supreme Court which held that ad valorem tax is owed on a company’s Intangible Personal Property (such as trademarks, patents, computer software, contracts, customer lists, goodwill and advertising campaigns).

Income Tax Reform
The Chamber supports a reduction in the state income tax provided the necessity of generating increased revenue does not fall disproportionately or unfairly on businesses.

Immigration Reform
The Chamber opposes illegal immigration. We support an improved immigration process that promotes the ability of students and workers to enter the U.S. lawfully and allows employers to accurately verify the status of employees through a federal database. We believe that immigration policy should be set by the federal government and support comprehensive reform at that level.

Additionally, the Chamber will support immigration reform on the state level that:
1) is consistent with federal law;
2) does not place unreasonable burdens, costs or penalties on Oklahoma employers;
3) is directed toward law enforcement issues related to Oklahoma crimes;
4) will not lead to “racial profiling” by law enforcement officials; and,
5) does not limit the ability of students graduating from Oklahoma high schools to qualify for state-supported aid or pay in-state tuition.

American Indian Cultural Center & Museum
The Chamber supports legislation to allow state bonds to be issued to match privately-raised funds to facilitate the completion of the American Indian Cultural Center & Museum.

Water
The Chamber will work with the City of Oklahoma City to ensure the availability of a long-term water supply for central Oklahoma. We will continue to monitor the implementation of the state comprehensive water plan and water-related legislation to protect central Oklahoma's water supply.

Pension Reform
The Chamber supports a constitutional amendment to protect and strengthen the financial condition of the state's pension plans by requiring existing pension benefit obligations be satisfactorily funded before adopting additional benefit improvements.

PRE-K - 12 EDUCATION

Early Childhood Education
The Chamber has been a steadfast supporter for early childhood education including support for full funding of pre-kindergarten and kindergarten programs. We support legislative initiatives that would enhance early childhood education programs and initiatives.

Transformational Education Reform
In 2011 legislation was introduced that would create an in-state competitive program to fund new and innovative programs to improve performance, close the achievement gap and raise accountability. The Chamber supports passage of legislation that will allow the State Department of Education to create an in-state grant program to encourage innovative programs.

Charter Schools and School Choice
The Chamber has been a strong advocate for the creation and use of charter schools and creation of more education choices. We support reforms that enable charter schools to fund infrastructure, including changes to the school funding formula and/or allowing charter schools to be able to utilize bond funding. We also support efforts to lift the caps on how many students can attend a charter school.

Improved Transparency
In 2011 the legislature enacted a new law that requires all schools to be graded on an A-F system instead of the current 0-1500 rating scale – improving transparency and making it easier for parents to evaluate school performance. We support passage of follow-up legislation and regulatory changes needed to improve transparency. In particular we encourage careful consideration of key factors that impact the new grading system including data matching issues, economic development impact and utilization of overall school improvement data.

Online Education / Virtual Schools
Programs that offer online education opportunities are expanding rapidly, but there are concerns about the impact on school funding and questions about the quality and accountability of online providers. We support legislation to define curriculum and academic requirements that will allow students to earn academic credit via online courses. We support changes only if online education providers meet content and rigor requirements similar to local public schools. We support legislation to clarify the rules governing online and/or virtual schools and that creates transparency for providers, school districts, parents and students.

Increased Instruction Time
Studies show a correlation between student time in the classroom and increased academic performance. Oklahoma currently requires only 175 instructional days, which is among the lowest in the nation, and some schools have instructional days of six hours or less. We support legislation that facilitates increasing instruction time in the classroom and time on-task. This may include additional days and/or additional hours in the instructional day.
Improved Teacher Preparation
Teachers face many challenges, and schools that train teachers must continue to improve curriculum and better prepare teachers. We support implementation of programs that will improve the education of teachers and provide them with additional “real world experience” before they enter the workforce. Higher education should also monitor graduates once they start teaching.

Incentives for Excellence in Teaching
The recruitment, development and retention of strong and dedicated teachers are fundamental elements of any successful educational system. We support utilization of the National Board Certification (NBCT) model as a basis for creating high performing teachers but encourage these reforms:

- pay teachers who previously qualified for NBCT stipends for the remainder of their certification, plus the years missed.
- recommit to offering NBCT scholarships for teachers to pursue certification and/or recertification, with a cap to contain costs.
- phase-out NBCT stipend as the certification hits the 10-year expiration date.
- invest in a pilot, whole-school professional development model.
- initiate discussion of pay-for-service stipend model for future NBCTs.

Teacher Salaries - Pay for Performance
The business community has regularly supported efforts to raise teacher salaries to the regional average. The Chamber will continue to support creating competitive salary and benefits for teachers, but any future benefit enhancements should be based on improved student performance.

In 2010 legislation authorized creation of an innovative Teacher and Leader Evaluation (TLE) system that will tie evaluation to student performance, change definition of tenure and create an incentive pay system. We support aggressive implementation of the TLE system and a pay-for-performance system to provide financial incentives for high performing educators.

Student Records Systems
In 2009 the legislature enacted a bill to begin creation of a statewide P-20 student records system. In 2010 additional legislation required dramatic improvement of the system as part of the TLE. The system must include student level, course grades, testing results, demographic and personal information. The system would also help track students who move from district to district and help monitor graduation rates. The Chamber supports aggressive implementation of a uniform, statewide student records system.

Improve Curriculum Standards
In 2010 legislation was passed that requires the State Board of Education to adopt the K-12 Common Core Standards. We support aggressive and full implementation of the core standards and, in particular, encourage higher math standards.

Maintain and Protect Graduation Requirements
The Chamber and the Oklahoma Business & Education Coalition (OBEC) worked to ensure all high school graduates are academically prepared to enter college or the workforce and supported the Achieving Classroom Excellence (ACE) law that requires students to complete rigorous coursework and pass four of seven end-of-instruction exams. We oppose weakening graduation requirements or curriculum standards, as well as legislative and administrative actions that could reduce the rigor of the testing system.

Oklahoma School of Science and Mathematics
The Oklahoma School of Science and Mathematics (OSSM) has consistently ranked among the nation's top public high schools, and has the highest average ACT score in the U.S. We support the full funding of OSSM
so it can remain a center for excellence. Also, we will oppose efforts that would require OSSM students to pay for portions of their tuition or room and board, as this would create a barrier for certain students to attend.

Health and Wellness
The health statistics of Oklahomans and in particular, children, are alarming. A key factor in improving our overall health is awareness of what can be done to improve our health status. We support initiatives to encourage more health and wellness programs in our schools.

HIGHER EDUCATION

College Degree Completion
In September 2011, Gov. Mary Fallin announced a new higher education initiative to increase the number of Oklahomans who have post secondary certificates and college degrees. The Chamber supports passage of the legislative initiatives that will enhance implementation of Gov. Fallin’s college degree completion plan.

Funding
Increasing the number of college graduates in Oklahoma will increase our per capita income and strengthen our economy. We support higher education funding as growth revenue is available and support leaving the tuition setting authority with the Oklahoma State Regents for Higher Education. The Chamber supports higher education capital and maintenance improvements to support record enrollment growth. We also support continuation of OTEG (equalization grants) and OTAG (aid grants).

Endowed Chairs
The Endowed Chairs program is an effective program that provides state funding to match private contributions for teaching and research professorships. The Chamber supports finding a solution to help the state meet the commitment to match private contributions.

Campus Safety
In the past three years legislation has been introduced that would allow certain students to carry concealed weapons onto college property. The Chamber continues to oppose efforts to permit the carrying of concealed weapons on higher education campuses.

Oklahoma’s Promise
OK Promise is one of the most successful college access programs in the country. There have been efforts in past sessions to change the program’s requirements to reduce the number of students eligible to participate. Changing the program’s requirements would alter its intent, which is to ultimately provide students more access to college, resulting in an increase in Oklahoma college graduates. We oppose legislation that would change the focus of the program.

Career Tech System
The Oklahoma Career Tech System is recognized as one of the top systems in the nation. The Chamber supports enhancement of Career Tech programming and funding. In particular we support legislation that creates additional flexibility in utilizing the building fund and legislation requiring a fourth unit of math that recognizes CTE (career technology education) math as meeting graduation requirements.

The Chamber opposes legislation that further expands possession of firearms on technology center campuses.

HEALTH CARE

Mandates
The Chamber opposes new health insurance mandates and liability that will undermine an employer’s ability to provide quality health insurance at a reasonable cost to employees.

Health Insurance Network
The Chamber supports the creation of an Oklahoma-led and private sector-based state health insurance network that will provide a marketplace for Oklahomans and
serve to prevent the imposition of burdensome federal mandates upon the State of Oklahoma required under the current federal health care law.

Research and Development
The Chamber will oppose efforts to unreasonably restrict the continued development of the state’s bioscience and research programs and will support efforts to foster an environment that is conducive to further research.

Medicaid
Because HB 1381 (the Supplementary Hospital Offset Payment Program (SHOPP) Act) expires in 2014, the Chamber supports a long-term solution to fund the state’s Medicaid program through full reimbursement funding for Medicaid services provided by hospitals to the federal upper payment limit (UPL). The Chamber further supports setting the Medicaid reimbursement rate for physicians at no less than 100 percent of Medicare rates.

Wellness
The Chamber supports state wellness and prevention programs that serve to improve the health of Oklahomans, such as programs supported through the State Department of Health, outreach initiatives, as well as workplace and school-based wellness programs.

Smoking
The Chamber supports legislation that would remove the restriction on the hiring of non-smokers after Nov. 1, 2012.

The Chamber will monitor legislation that would give municipalities the right to ban smoking in public places.

Increased Health Professional Workforce
The Chamber supports incentives to recruit and retain primary care physicians and allied health professionals in Oklahoma, especially in rural and underserved areas, through expansion of residency programs in the state’s medical schools, scholarships, loan forgiveness and other incentives. We further support efforts to identify new funding streams dedicated to this initiative.

Federal Issues
The Chamber supports improving health care quality, coverage and affordability without imposing new mandates and/or taxes on business. Therefore, we oppose a single-payer government-run/public option or health care system with government mandates.

We believe that employers drive innovation in health benefits and that market-driven health reforms are the best approach to reducing costs while promoting efficiency, wellness and quality of care.

TRANSPORTATION

I-40 Crosstown Realignment
The Chamber will advocate for funding and completion of the I-40 Crosstown realignment mainline in 2012.

The Chamber will advocate for funding and completion of the teardown of the elevated portion of the existing I-40 Crosstown to make way for the Downtown Boulevard by 2013.

The Chamber will work with the Congressional Delegation, the Oklahoma Department of Transportation (ODOT), and the City of Oklahoma City to complete the Downtown Boulevard by 2014.

The Chamber will advocate for completion of the Lincoln/Byers project to connect Bricktown to the Oklahoma River and Boathouse Row in 2012.

Federal Highway Trust Fund
The Chamber will work with ODOT, the City of Oklahoma City and our Congressional Delegation to secure a permanent funding solution for the Federal Highway Trust Fund. We also support the reauthorization of the multi-year Surface Transportation Act.

Major Interchanges
The Chamber will advocate for funding and completing
work on major interchanges located at I-44 and Broadway Extension, I-240 and I-35 (Crossroads) as well as the necessary improvements to S.H. 74 (north of Lake Hefner Parkway).

10th Street Ramp
The Chamber will advocate for completion of the I-235/Harrison/10th Street ramp access improvements in 2012.

Governor's Bridge Improvement and Turnpike Modernization Plan
The Chamber supports Governor Fallin’s Bridge Improvement and Turnpike Modernization Plan to repair or replace all of Oklahoma’s structurally deficient and functionally obsolete bridges by 2019 and to expand the Kilpatrick Turnpike.

Weigh Stations
The Chamber supports the timely completion of weigh stations at Oklahoma’s ports of entry to ensure the protection of roads and bridges from unnecessary damage caused by overweight freight loads.

Allowable Weight Limit
The Chamber will study the potential impact of federal legislation that would significantly increase the allowable weight limit of trucks hauling freight on Interstate Highways.

Legislative Funding
The Chamber supports efforts made by the state legislature to secure transportation funding and preserve ODOT’s eight-year construction work plan.

Transit
The Chamber supports continued dialogue on transit programs that will best serve Central Oklahoma including:

- Central Oklahoma Transportation & Parking Authority’s (COTPA) 2005 Fixed Guideway Transit Study (alternative analysis process)
- ACOG’s Regional Transit Dialogue Committees to identify regional transit alternatives/solutions for Central Oklahoma
- alternatives analysis process for examining potential commuter rail corridors
- amending state laws to facilitate the development of improved transit in Central Oklahoma.

We support COTPA’s effort to secure a $75 million New Starts Grant from the federal government that would allow for an additional four-mile expansion of the downtown streetcar portion of MAPS 3.

Intermodal Hub
The Chamber will work with the City of Oklahoma City, Association of Central Oklahoma Governments (ACOG), COTPA, ODOT and the state legislature to develop and fund an intermodal hub at the present Santa Fe Station that will effectively integrate various modes of transportation and enhance economic development opportunities.

Heartland Flyer
Passenger rail service is a key component to the development of the Oklahoma City’s intermodal hub and the future development of commuter and light rail throughout the metropolitan area. The Chamber will work with our Congressional delegation, the City of Oklahoma City, ACOG and ODOT to oppose efforts to reduce or eliminate the state subsidy received by Oklahoma to operate the Heartland Flyer Amtrak service to Forth Worth.

Quiet Zones
The Chamber will work with the City of Oklahoma City to establish a Railroad Quiet Zone on the BNSF mainline running through downtown Oklahoma City.

Alternative Transportation
The Chamber encourages the construction of sidewalks, trails and bike lanes where appropriate.
The Greater Oklahoma City Chamber recognizes the benefits of partnerships when working to represent the business community and create a pro-business climate statewide. In 2012, the Chamber will work with the Tulsa Metro Chamber in lobbying the state legislature on the following issues.

**DEVELOPMENT, ECONOMY & TAXES**

**Economic Development Incentives**
The Chambers support legislation or a constitutional amendment to permanently address the 2009 ruling of the Oklahoma Supreme Court which held that ad valorem tax is owed on a company's Intangible Personal Property (such as trademarks, patents, computer software, contracts, customer lists, goodwill and advertising campaigns).

The Chambers support the continued implementation of effective tax credits as a means of maintaining Oklahoma's competitiveness with surrounding states and to continue attracting high-quality jobs for our citizens. In particular, we support the Quality Jobs Program (QJP); the 21st Century QJP; the Qualified Rehabilitation Expenditures for Historic Buildings incentive and the Investment/New Jobs Tax Credit.

The Chambers support funding the Governor's Quick Action Closing Fund provided the safeguards currently in HB 1953 remain in place and measurable employee, salary and capital investment targets are implemented to ensure accountability and transparency in project selection.

**Oklahoma Quality Events Act**
The Chambers support full implementation of the Oklahoma Quality Events Act.

**Liquor Laws**
The Chambers will work with all significant stakeholders to examine the benefits and consequences of updating the state's liquor laws.

**EDGE Endowment Fund**
The Chambers advocate protecting the Economic Development Generating Excellence (EDGE) fund from being repealed or borrowed from and support identifying a permanent funding source to allow the fund to reach $1 billion.

**OCAST**
The Chambers advocate full funding for programs managed by OCAST, including the Seed Capital Fund and other programs managed by i2E, to support the creation and growth of small businesses and jobs in Oklahoma.

**TRANSPORTATION**

**Bridge Improvement & Turnpike Modernization Plan**
The Chambers support Gov. Fallin's Bridge Improvement & Turnpike Modernization Plan to repair or replace all of Oklahoma's structurally deficient and functionally obsolete bridges by 2019 and to expand the Creek and Kilpatrick Turnpikes provided that it does not negatively impact funding levels for education.

**Existing Road Funding**
The Chambers will defend all existing road funding; prevent any diversion of monies; and support increased funding for transportation by developing an adequate, comprehensive funding strategy to broaden the sources of funds and increase the total amount going to transportation statewide.

The Chambers support efforts made by the state legislature to secure transportation funding and preserve ODOT's eight-year construction work plan. We support methods to expedite the critical need for weigh station completion and weigh-in-motion infrastructure that protect road and bridge quality from overweight freight traveling through the state.
Workers’ Compensation Reform
The Chambers believe additional reforms to the state’s workers’ compensation laws are necessary to protect business and improve our state’s competitive position for economic development. However, we believe the impact of the reforms enacted during the 2011 legislative session should be evaluated before additional reforms are pursued.

Lawsuit Reform
The Chambers believe additional lawsuit reforms should be considered to help foster a positive business environment in Oklahoma.

EDUCATION

The Chambers support passage of legislative initiatives which will enhance implementation of Gov. Fallin’s college degree completion plan, helping to reduce and eliminate Oklahoma’s critical shortage of highly skilled and educated workers.

The Chambers support passage of the legislation that will allow the State Department of Education to create an in-state grant program to encourage incentive programs.

The Chambers support legislation to define curriculum and academic requirements that will allow students (older and secondary) to earn academic credit via online courses. We support legislation only if online education providers meet academic content, rigor and assessments requirements similar to public schools. We also support legislation that clarifies the rules governing online/virtual schools, enrollment periods and that creates transparency for providers, school districts and parents.

The Chambers support legislation that facilitates increasing instruction time in the classroom and time on-task. This may include additional days and/or additional hours in the instructional day.

The Chambers support utilization of the National Board Certification (NBCT) model as a basis for creating high performing teachers but encourage these reforms:

- pay teachers who previously qualified for NBCT stipends for the remainder of their certification, plus years missed.
- recommit to offering NBCT scholarships for teachers to pursue certification and/or recertification, with a cap to contain costs.
- phase-out NBCT stipend as the certification hits the 10-year expiration date.
- invest in a pilot, whole-school professional development model.
- initiate discussion of pay-for-service stipend model for future NBCTs.
IMMIGRATION

The Chambers oppose illegal immigration. We support an improved immigration process that promotes the ability of students and workers to enter the United States lawfully and allows employers to accurately verify the status of employees through a federal database. The Chambers believe that immigration policy should be set by the federal government and support comprehensive reform at that level that recognizes the need for essential workers so the U.S. can continue to attract the best and brightest talent from around the world.

PENSION REFORM

The Chambers support protecting and strengthening the financial condition of the state's pension plans by requiring existing pension benefit obligations to be satisfactorily funded before adopting additional benefit improvements.

FEDERAL

The Chambers will encourage members of Congress to restrict federal agency rulemaking authority so that rules potentially resulting in a strong detrimental economic impact to the business community are required to produce a proven environmental benefit in order to be passed. This includes, but is not limited to, regulatory initiatives related to the regulation of ozone levels, carbon and greenhouse gases and water.

The Chambers support fair and equal treatment of local business through the passage of the Marketplace Fairness Act, allowing collection of sales tax from online sales and preventing the further erosion of our local merchants’ competitiveness.

The Chambers support timely reauthorization of the multi-year surface transportation act and securing a permanent and adequate funding solution for the Highway Trust Fund.

The Chambers will work to attain Center for Medicare and Medicaid Services (CMS) approval of the Supplemental Hospital Offset Payment Program (SHOPP).

HEALTHCARE

The Chambers support the development of an intermodal transportation system, including streets, transit, express buses, ports, airports, and rail.

The Chambers support the creation of an Oklahoma-led and private sector-based state health insurance network that will provide a marketplace for Oklahomans and serve to prevent the imposition of burdensome federal mandates upon the State of Oklahoma required under the current federal health care law.

Because HB 1381 (the SHOPP Act) expires in 2014, the Chambers support a long-term solution to fund the state’s Medicaid through full reimbursement funding for Medicaid services provided to the federal upper payment limit (UPL). The Chambers further support setting the Medicaid reimbursement rate for physicians at no less than 100 percent of Medicare rates.

The Chambers oppose new health insurance mandates and liability that will undermine an employer's ability to provide quality health insurance at reasonable cost to employees.

The Chambers support incentives to recruit and retain primary care physicians and allied health professionals in Oklahoma, especially in rural and underserved areas, through expansion of residency programs in the state’s medical schools, scholarships, loan forgiveness and other incentives. The Chamber further supports efforts to identify new funding streams dedicated to this initiative.

The Chamber also partners with the Central Oklahoma Regional Advocacy Alliance (CORAA), a regionally-focused advocacy group composed of Greater Oklahoma City area chamber of commerce executives and business leaders that is dedicated to active dialogue and engagement on core issues impacting the economic health of central Oklahoma.

In 2012, the Chamber will work with CORAA and its members to advocate on behalf of key issues such as federal air quality standards; transportation infrastructure funding; and the protection of water supplies.
FUELING A BETTER FUTURE FOR ALL OF OKLAHOMA CITY

Chesapeake Energy Corporation is the second-largest producer of natural gas, a Top 15 producer of oil and natural gas liquids and most active driller of new wells in America. Oklahoma gave us our start and we’re honored to give back. Chesapeake employs 6,800 people statewide and in the past five years has paid more than $1.4 billion in taxes that support local schools, hospitals and other government-funded programs. We’re also proud to partner with the Oklahoma City Chamber on many worthwhile initiatives that benefit the entire city. Together, we’re Fueling America’s Future® and working to make Oklahoma City better every day.
GET INVOLVED.
MAKE A DIFFERENCE.

Every member of the business community can make a difference at the capitol by personally communicating with their legislators and encouraging others to do the same. Even a few letters, e-mails or phone calls can impact a vote. When you hear that an issue important to your business is under consideration, please contact your elected officials.

Communicating with your legislators is quick and simple. The Greater Oklahoma City Chamber’s Legislative Action Center, www.LegislativeActionCenter.net, provides all you need to make your voice heard.

Call. Pick up the phone and call your legislator at their office. Be sure to leave a message if they’re unavailable.

Mail. Using business or personal letterhead, send your legislator a letter expressing your concerns over issues.

E-mail. You can send an e-mail directly to your legislator through www.LegislativeActionCenter.net.

Visit. Schedule an appointment to sit down and talk to your legislator face-to-face.

RAISING THE STANDARD OF CORPORATE HOUSEKEEPING ONE RELATIONSHIP AT A TIME...

A clean and sanitized workplace keeps your team productive and healthy. GT Clean is the metro area’s premier commercial cleaning solution. Let our experts create a plan customized for your business. From security-sensitive technical facilities to medical offices and schools, GT Clean is your trusted partner for janitorial services done right the first time, every time.

Our crews are fully licensed, insured and held to the highest standard in the industry. It’s no wonder why we are the preferred provider of corporate commercial cleaning services. Let us show you how superior customer service and attention to detail can make your property shine!
It is difficult for anyone to have a relationship with every state official. However, when members of the business community come together through the Greater Oklahoma City Chamber Political Action Committee (Greater OKC Chamber PAC), the collective voice grows louder and the business community’s impact on elections is advanced.

A strong business climate is imperative for the region’s continued growth. By electing business-friendly candidates to Oklahoma’s government, there is an opportunity to further strengthen our region. A strong political action committee will lead to a stronger influence of Oklahoma City’s business community through the election of candidates who support our priority issues.

Every business in Greater Oklahoma City, no matter the size, shares in the successes and failures of the state’s economic policy. There is only one group that exists solely to further the goals of Greater Oklahoma City’s business community – The Greater OKC Chamber PAC.

The Greater OKC Chamber PAC is the only fund that aggressively pursues the election and re-election of candidates who take a stand for Oklahoma City’s key business issues such as:

- Economic Development
- Workers’ Compensation Reform
- New Business Development
- Lawsuit Reform
- Transportation Funding
- Improving Oklahoma Education Systems
- and many others

For more information about the Greater Oklahoma City Chamber PAC, contact Mark VanLandingham at mvanlandingham@okcchamber.com or 297-8925.

Oklahoma-owned, Nationally Recognized.

Oklahoma-owned, Nationally Recognized. One of Reuters’ Top-Performing Healthcare Systems in the Nation

INTEGRIS Health was recently named one of the top-performing healthcare systems in the United States by Thomson Reuters – the only Oklahoma-owned healthcare system to earn this distinction. We’re proud to be recognized nationally, but mostly we’re grateful for what we have right here.

From our talented physicians to our selfless nurses and tireless staff, we get to go to work each day with people who truly represent traits that define Oklahoma – the rugged resilience, quiet strength and unquestioning compassion that makes INTEGRIS proud to be Oklahoma-owned and Oklahoma-grown.
The Research Institute for Economic Development (RIED) evaluates voting records of legislators in the Oklahoma House and Senate to determine their support for business, jobs and economic growth legislation.

Founded in 1997 by business, industry and financial leaders across the state, RIED is a non-partisan organization endorsed by the Greater Oklahoma City Chamber, the Tulsa Metro Chamber and The State Chamber.

The results of the evaluation are published in an annual study.

2011 study showed strong support for economic growth in both the House and Senate. This year, 64% of the House and Senate earned passing scores. When RIED released its first evaluations in 1999, only 35% of Oklahoma’s legislators supported business and economic growth issues.

Legislators’ RIED scores for 2005-2011 are listed alphabetically in the table below. Scores of 70 or more reflect a pro-business voting record. Scores below 70 represent a voting record against pro-business measures. These scores are shown in RED.

Oklahoma State Government

Election carried out by State Election Board
(405) 521-2391

Oklahoma’s state government consists of the Executive, Legislative, and Judicial branches. The executive offices are elected to four-year terms, except for the Corporation Commissioners, who are elected to staggered six-year terms.

Oklahoma’s bicameral legislature is composed of 48 State Senators and 101 State Representatives. Senators serve staggered four-year terms. Elections for odd-numbered Senate districts will be in 2012. All seats in the House of Representatives are elected every two years.

The state is divided into nine Supreme Court judicial districts, with three judges elected every two years during the general elections.

OKLAHOMA COUNTY GOVERNMENT
www.oklahomacounty.org

The administrative body of Oklahoma County is the Board of County Commissioners, which was created by the Oklahoma Legislature. Oklahoma County, like all counties in Oklahoma, is divided into three districts. The districts are as equal in population as possible, numbered 1, 2, and 3, and subject to alteration by the Oklahoma Legislature not more than once every 10 years. One commissioner is elected from each district for a term of four years.

Elections are held every two years, beginning with a primary on the last Tuesday in July. The run-off is held on the fourth Tuesday of Aug., and the general election is on the first Tuesday following the first Monday in Nov.

2012 LEGISLATIVE GUIDE
The City of Oklahoma City is governed by a council/manager system established by an amendment to the city charter in 1927. The charter, adopted in 1916, originally called for a commission form of government. The mayor and eight city council members are elected to four-year terms. In order to keep continuity within city government, half of the council is elected every two years. The city is divided into eight wards. The voters of each ward elect a council member to represent them, and the mayor is elected at large. The mayor and the council appoint a city manager to serve as the city’s chief administrative official.

Primary elections are held the first Tuesday of March. The general election is held the first Tuesday of April. The filing period is neither more than 29 days nor less than 24 days before the primary election. Elections for the city wards are always held in odd-numbered years, while the mayoral election is held in an even-numbered year. Elections for 2011 are as follows:

**YEAR**  2011
**RACE**  Wards 1, 3, 4, 7
**GENERAL**  March 5
**RUNOFF**  April 2

Election carried out by Oklahoma County Election Board.

OKLAHOMA CITY SCHOOL DISTRICT

www.okcps.org

Oklahoma City School District, I-89, has eight elective school board officers
that manage the fiscal matters of the school district according to state
statutes. There is one chairman (a new position as of 2001) elected district-
wide and seven board members elected from geographical districts. Board
elections rotate by district on a four-year cycle.

*Life Members
**BOARD OF ADVISORS / LEAD INVESTORS**

Board of Advisor member companies play a key leadership role in the Greater Oklahoma City Chamber. An annual investment of $3,000 or more qualifies a member company to be part of the Board of Advisors. Through additional financial support, they are invited to Board Meetings, Board Retreats and Intercity Visits.

Lead Investor member companies demonstrate their commitment to Greater Oklahoma City by financing the Chamber’s operations at significantly higher levels. An annual investment of $1,000 or more qualifies a member company to be a Lead Investor.

The two keys to the future? Technology, and the people who’ll be using it.

It strengthens communities. And transforms lives. That’s why AT&T is so committed to improving education, especially through the greater use and understanding of technology. In fact, more than half of our contribution dollars and volunteer hours benefit education in some way. Because who knows, the student we help today could be the scientist, doctor or business leader who helps someone else tomorrow.
The symbol may change, but the mission never will.

Since our beginning, we have lived the mission of the Sisters of Mercy who founded our ministry. Today, Mercy continues to live across seven states we serve. And in the months to come, all of us will not only be united in name and in spirit, but by a new symbol. This symbol — a contemporary version of the one first used by Catherine McAuley, founder of the Sisters of Mercy — will represent Mercy everywhere we serve. Moving forward, together we will continue to listen, learn and transform the way we care.

mercy.net will soon be Mercy.net
